Narcissus

DAFFODILS.

No class of bulbs is more satisfactory and none so easily taken care of as the Daffodils. They appear just after the snow and ice of winter and enliven our gardens and lawns. Nothing can excel the beauty and chastity of their blooms, and they have the advantage of being good for an unlimited number of seasons, if planted out in some spot where they can be allowed to mature their foliage. They are perfectly hardy and withstand our severe winters without protection. Should be given the same treatment as recommended for Hyacinths, either for indoor or outdoor cultivation.

Paper White Grandiflora

Produces large trusses of bloom of the purest snow white, large-sized for forcing for early cut flowers. There is no more satisfactory bulb for house cultivation. It can be readily brought into bloom for Christmas or earlier. Like the Chinese Sacred Lily, it may be grown in water in a bowl with a few pebbles to keep the

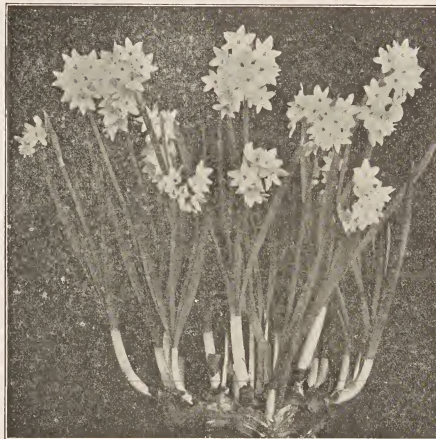

bulbs in place. Three or four bulbs should be used in a 6-inch bowl. Grown in this manner, there is no more pleasing object for the parlor.

Louise—Large, light blue	.20	1.25
Mixed—Blue, yellow, white	.15	1.00
Siberica—One of the most beautiful, early spring blooming bulbs, bearing a profusion of remarkably pretty, rich blue flowers as soon as the snow has disappeared from the ground. Grown in masses or with Crocuses and Snowdrops, it presents a charming effect. It is perfectly hardy and remains in bloom a long time. It also makes a very showy plant for the conservatory or parlor in winter.		

SNOWDROPS. The little nodding flowers of this well known plant are generally the first to appear in spring, after rearing their delicate heads above a light covering of snow in early March.

	Each	Doz.	100
Elwesi—Giant Single	.03	\$.25	\$1.50

Spiraea

These Spiraeas are sufficiently hardy for outside cultivation here but are usually grown as pot-plants in the greenhouse or green-house. They are not subject to insect attack and are of the easiest cultivation, coming into bloom in 10 to 14 weeks from the time the roots are potted up. Large, imported clumps (Ready in November). If wanted by mail, add 15c to cover postage on each root.

	Each	Doz.	100
Queen Alexandra—A new pink Spiraea with dense, compact spikes	.30	\$2.00	\$14.00
Gladstone—The best of all the Spiraeas, with very large trusses of pure white blossoms	.25	1.75	13.00

OXALIS.

A very pretty and very desirable bulbous plant for pot culture and well adapted for hanging baskets. The graceful flowers are abundantly produced, although the bulbs are quite small. These should be planted not singly, but a number in each pot.

	Each	Doz.	100
Bermuda Buttercup—Bright yellow	.04	\$.30	\$2.40
Bowl—Deep rose	.04	.30	2.00
Gemma Plena—Double yellow	.04	.30	2.00

Multiflora Alba—White	.04	.30	2.00
Versicolor—White bordered	.04	.30	2.00

CURRIE BROS. CO.
384 EAST WATER STREET
MILWAUKEE, WISCONSIN

TO OUR PATRONS

OWING TO WAR CONDITIONS in Europe the delivery of Dutch Bulbs was very uncertain, we therefore were unable to issue our regular Bulb Catalogue, showing cuts of the different varieties. We were obliged to issue this condensed list on short notice, and hope it will meet with your requirements.

The flowers most loved are those that come early in the spring, after a dreary winter. With great delight we observe the Snowdrop, Crocus, Brilliant Tulips, Stately Hyacinths. These make our gardens and lawns as attractive and interesting as ordinary flowers do in summer.

Why, then, do we not plant a variety of them in abundance?

When once planted, they are good for several years without further trouble.

To have them next spring in all their glory they must be planted this fall.

Make up your order at once, and send it to us before the ground freezes up.

In making out your order, be careful to give your full name and address, write plainly to prevent mistakes and delay.

Our terms are Strictly Cash with order. Remittance may be made at our risk by any of the following methods, viz: Postal Money Order, Draft on New York, Chicago or Milwaukee, or Express Company's Money Order.

We give no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds, bulbs or plants we send out, and we will not be in any way responsible for the crop.—CURRIE BROS. CO.—(Official Disclaimer of the American Seed Trade Association.

CURRIE BROS. CO., MILWAUKEE WIS.

Dutch Hyacinths

How To Grow Them

Pot Culture—Use a 4 or 5 inch pot for each bulb, a light, rich sandy soil is best. The upper surface of the bulb should show above the soil. After potting, water thoroughly and place in a dark, cool cellar, covered up with sand or ashes until well rooted; this is generally from two to three months.
Glass Culture—Fill the glass so that the base of the bulb will just touch the water and set away in a cool, dark place until well rooted. Change the water frequently.
Outdoor Culture—Plant in October or early November, about 6 inches apart and 5 inches deep. Cover the bed with short manure during the winter.

Choice Named Hyacinths

Price 15 Cents Each; \$1.50 per Doz., \$10.00 per 100.
Delivered to any Postoffice or Express Office in the United States.
6 OF ONE KIND AT DOZEN RATES AND 25 AT 100 RATES.

SINGLE RED AND ROSE.

Garibaldi—Brilliant carmine, early flower.
Gertrude—Rosy pink, fine truss.
Gigantea—Blush pink, very fine truss.
King of Belgium—Bright red, good truss.
La Victoire—Brilliant scarlet, very fine spike.
Lord Macaulay—Bright, rosy carmine, white eye.
Moreno—Waxy pink, large bells.
Robert Steiger—Bright crimson, large spike.
Rosa Maxima—Delicate pink, fine truss.

SINGLE WHITE.

Albertine—Purest white, early.
Baroness van Thuyll—Pure white, large truss.

Tulips

Garden Culture of Tulips—Any good soil, well enriched, will suit Tulips. October, or early in November, is the proper time to plant them. Set them 4 or 5 inches apart, and about 4 inches deep. Protect during severe months of winter with a covering of straw or manure.

All the early Tulips are adapted for pot culture in the house. The Due Van Tholl varieties can be forced into bloom for Christmas. Plant at least three or four bulbs in each pot.

The earliest blooming varieties are marked a, next b, and so on in their order. The number before the name denotes the heights of their growth in inches. 25 bulbs at 100 rate; 250 at 1,000 rate.

Striped Beauty—Large, showy flower, flamed white and cherry red
Sweet Nancy—White, edged pink

Breeder Tulips

Old Dutch self colored Tulips which have been neglected for many years, the present taste for artistic colors, has, however, called them into prominence once more. Nature's happiest color combina-

CURRIE BROS. CO., MILWAUKEE WIS.

tions of Purple and Bronze, Grey and Lilac, Yellow and Bronze, Brown and Orange, are revealed to us in this group. The flowers are mostly large, but of perfect form and are borne on tall, strong stems. Each \$1.10 Doz. \$10.00
Black Chief—Dark purple black.
Cardinal Manning—Blend of mauve and rose changes to orange.
Grand Maitre—Deep purplish violet.
Jaune d'Or—Golden, outside petals shaded apricot.
Mary Hollis—Soft cerise carmine.

Darwin Tulips

Brilliant, self-colored single late Tulips of immense size, borne on strong stems, many of them feet high. The blooms are of almost every conceivable color, from pale bluish to the brightest red, lilac, light blue and purple to almost black, etc.

Darwins have become wonderfully popular during the past few years, a fact not surprising to those acquainted with the perfect beauty of their form and substance, their rich, brilliant colors, their long, straight, stiff stems, the persistence of their blooming period and their adaptability either to outdoor growing or forcing under glass. Most of the varieties may easily be forced indoors by mid-winter or the end of February.

	Each Doz. \$0.05 \$0.40	100 \$2.75	1000 \$22.00
Baron de La Tonnave—Vivid rose, one of the best
